# **SECTION 5. FIRE-FIGHTING MEASURES**

### Extinguishing media

Suitable extinguishing media

: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media

: Do not use a solid water stream as it may scatter and spread fire.

### Special hazards arising from the substance or mixture / Conditions of flammability

### Special fire-fighting procedures

: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. A full-body chemical resistant suit should be worn. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame. Dike for water control. Do not allow run-off from fire fighting to enter drains or water courses.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

# Personal precautions, protective equipment and emergency procedures

: All persons dealing with clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Keep all other personnel upwind and away from the spill/release. Restrict access to area until completion of clean-up. Refer to Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.

## Environmental precautions :

Do not allow material to contaminate ground water system. For large spills, dike the area to prevent spreading.

### Methods and material for containment and cleaning up

: Remove all sources of ignition. Ventilate area of release. Stop spill or leak at source if safely possible. Dike for water control. Sweep up or vacuum up spillage and collect in suitable container for disposal. Contact the proper local authorities.

(29 CFR 1910.134) or CSA Z94.4-02.

Wear protective gloves/clothing. Wear chemically protective gloves (impervious), Skin protection

boots, aprons, and gauntlets to prevent prolonged or repeated skin contact.

should be sought from glove suppliers.

Wear eye/face protection. Chemical splash goggles must be worn when handling this Eye / face protection

material. A full face shield may also be necessary.

Other equipment may be required depending on workplace standards. An eyewash Other protective equipment:

station and safety shower should be made available in the immediate working area.
